

# Aeronautical Decision Making - The History & How We Learn Not to Repeat the Same Mistakes

Over 75% of the accidents that we encounter today are directly caused by poor ADM. This has been the case since the beginning of flight, and the numbers don't seem to drop. How come? Are we forgetting about aerodynamics? Are we forgetting to plan for winds, weather and other contingencies? Or did we never learn the basics of how to make a good decision? Lets discuss these ideas and others as we explore ADM and today's pilot.

**Directions:** Hwy 97 Northbound. As you enter the town of Tonasket the Whistlers Restaurant is on the left hand side of the road, just north of 7th Street.

## A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!

## Event Details

**Thu, Apr 18, 2013 - 7:00 pm**

**Whistler Restaurant**

616 Whitcomb Avenue

Tonasket, WA 98855

**Contact: Minard Thompson**

**(509) 532-2350**
